

# Tripod Field Shelter - Stone Grey Olive

[Shooting Accessories](#) > [Bipods, Monopods & Accessories](#) > [Bipod Accessories](#)

The GTS Tripod Shelter is designed for situations where concealment and protection go beyond camouflage alone. With a compact and purpose-driven design, it transforms your tripod into a lightweight field shelter within minutes - creating cover from weather, observation, and environmental exposure.

Mounted directly onto the tripod, the shelter deploys into a structured tent-like enclosure, using the tripod itself as the central support system. This creates a fast and efficient solution for hunters, precision shooters, and professional users who require temporary concealment or protection without carrying a full-sized tent system.

The material is lightweight yet durable, offering resistance against wind and light precipitation while maintaining packability. Once deployed, the shelter provides space for the shooter and essential equipment, helping reduce visual signature and break up the human outline in open terrain.

When not in use, the Tripod Shelter packs down into a compact MOLLE-compatible pouch. This pouch can be securely attached to the GTS Tripod Field Rig or other MOLLE platforms, keeping the system integrated and ready for immediate deployment without adding unnecessary bulk to your kit.

Designed for mobility, discretion, and efficiency, the GTS Tripod Shelter expands the role of your tripod far beyond stability alone.

Rapid deployment. Enhanced concealment. Practical field protection.

## Attributes

- Name: [Tripod Field Shelter - Stone Grey Olive](#)
- Manufacturer: [GERMAN TACTICAL SYSTEMS](#)
- Product no.: EU2017088
- Mfr. No.: GTS-7574-SGO
- Colour: Stone Grey Olive

# Tripod Field Shelter Safety Instruction Guide

## Introduction

Thank you for choosing the GTS Tripod Field Shelter. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this guide carefully before use to understand the potential hazards and how to avoid them.

## General Safety Guidelines

- Ensure the Tripod Field Shelter is used only for its intended purpose as a lightweight field shelter.
- Always inspect the shelter and tripod for any signs of damage before each use.
- Use the product in suitable weather conditions. Avoid using it in extreme weather that could compromise safety.
- Keep the shelter away from open flames and high heat sources.
- Always set up the shelter in an open area to prevent entrapment or injury from falling branches or debris.

## Specific Safety Precautions for Use

- When deploying the shelter, ensure that the tripod is stable and securely set up to prevent tipping.
- Be aware of your surroundings while using the shelter, especially in areas with wildlife or other potential hazards.
- Avoid overloading the shelter with equipment. Ensure that the weight is evenly distributed.
- Ensure that the shelter is adequately secured to the tripod to prevent it from being blown away by wind.
- Always have a plan for rapid shelter removal in case of sudden weather changes.

## Instructions for Installation and Usage

### 1. Setting Up the Tripod:

- Choose a stable and flat surface for setting up the tripod.
- Extend the tripod legs to the desired height and ensure they are locked in place.
- Check the stability of the tripod before proceeding.

### 2. Attaching the Shelter:

- Remove the Tripod Field Shelter from its pouch.
- Unfold the shelter carefully and locate the attachment points designed for the tripod.
- Securely attach the shelter to the tripod using the provided fastening mechanisms.
- Ensure that the shelter is taut and properly aligned with the tripod.

### 3. Deploying the Shelter:

- Once attached, gently pull the shelter down to form a tentlike enclosure.
- Adjust the shelter as necessary to ensure it covers the desired area effectively.
- Check for any loose areas and secure them as needed.

### 4. Using the Shelter:

- Once deployed, enter the shelter carefully, ensuring that no equipment gets caught in the structure.
- Keep essential equipment organized within the shelter to avoid clutter.
- Monitor the environment regularly for changes in weather or potential hazards.

### 5. Dismantling the Shelter:

- When finished, carefully remove any equipment from the shelter.
- Detach the shelter from the tripod and fold it back into its compact form.
- Store the shelter in the MOLLEcompatible pouch for easy transport.

## **Disposal Instructions**

- Dispose of the Tripod Field Shelter responsibly.
- If the shelter is damaged beyond repair, check local regulations for proper disposal methods.
- Recycle any components if possible, following local recycling guidelines.

## **Contact Information for Further Support**

For any inquiries regarding the safety and use of the GTS Tripod Field Shelter, please refer to the EU contact point provided with your product. Always ensure that you have the latest information regarding safety recalls and product updates through the EU's Safety Gate platform.

Thank you for taking the time to read this safety instruction guide. Your safety is our priority, and we hope you enjoy using your GTS Tripod Field Shelter.
