SpidErgo II Pistol Grips Safety Instruction Guide

Introduction

Thank you for choosing the SpidErgo II Pistol Grips for your Sig Sauer P226 SA. These grips are designed to enhance your shooting experience by providing superior ergonomics and control. To ensure your safety and the longevity of the product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always ensure that your firearm is unloaded before installing or handling the grips.
- Use the grips only as intended; they are designed specifically for the Sig Sauer P226 Single Action competition pistols.
- Keep the grips away from children and unauthorized users.
- Regularly inspect the grips for any signs of wear or damage. If damaged, discontinue use immediately.
- Store the firearm and grips in a secure location when not in use.
- Follow all local laws and regulations regarding the use and storage of firearms and accessories.

Specific Safety Precautions for Use

- Ensure a proper fit: The SpidErgo II grips are compatible only with the Sig Sauer P226 SA. Do not attempt to use them on other models.
- Be cautious of sharp edges: While the grips are precisionmachined, handle them with care to avoid cuts or injuries.
- Maintain a clean environment: When installing or handling your grips, work in a clean area free from debris that could interfere with the installation process.
- Avoid applying excessive force during installation to prevent damage to both the grips and the firearm.
- Do not modify the grips in any way. Alterations may compromise safety and performance.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather necessary tools, such as a screwdriver (if applicable), for installation.

2. Removal of Old Grips:

- Carefully remove the screws holding the existing grips in place using the appropriate tool.
- Gently pull the old grips away from the firearm, taking care not to damage any components.

3. Installation of SpidErgo II Grips:

- Align the SpidErgo II grips with the mounting holes on your Sig Sauer P226 SA.
- Insert the screws and tighten them securely but do not overtighten, as this may strip the screws or damage the grips.

4. Final Check:

- Once installed, check that the grips are firmly attached and do not wobble.
- Test the firearm to ensure that all functions operate smoothly with the new grips.

5. Usage:

- Practice safe handling and shooting techniques at all times.

- Familiarize yourself with the new grip feel and adjust your shooting stance if necessary.

Disposal Instructions

- Dispose of any packaging materials in accordance with local waste disposal regulations.
- If the grips become damaged beyond repair, dispose of them responsibly. Check local guidelines for disposal of aluminum materials to minimize environmental impact.

Contact Information for Further Support

For safety inquiries or additional support, please refer to the manufacturer's website or contact your local distributor.

By following these guidelines, you can ensure a safe and enjoyable experience with your SpidErgo II Pistol Grips. Thank you for your attention to safety.
