

Small Pin for Armanov Swage PRO | Dillon XL650 / XL750 - Armanov Swage PRO for Dillon XL650 | Base + Small Pin

[Home](#)

Streamline Your Brass Prep: High-Speed Progressive Swager Stop wasting time on a separate single-stage press just to clear military crimps. This innovative Swaging Kit integrates directly onto your Dillon press frame, mounting seamlessly in place of the factory primer feeding mechanism with the two included screws. For maximum durability, a heavy-duty vertical adjustment screw anchors the bracket firmly to the frame, ensuring zero flex under heavy loads.

Safety Instruction Guide for Small Pin for Armanov Swage PRO

Introduction

Thank you for choosing the Small Pin for Armanov Swage PRO designed for use with Dillon XL650 and XL750 presses. This guide provides essential safety instructions to ensure safe and effective use of your product. Please read this guide carefully before installation and usage.

General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when operating the swager.
- Keep the work area clean and free from distractions to avoid accidents.
- Do not modify the product in any way that could affect its performance or safety.
- Store the product in a safe place, out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.

Specific Safety Precautions for Use

- **Hazard Identification:** Be aware of potential pinch points when operating the swager.
- **Avoid Overloading:** Do not exceed the recommended load limits of the swaging mechanism.
- **Proper Handling:** Always handle the product with care, ensuring that it is securely attached to the press before use.
- **Use on Compatible Models:** This product is designed specifically for Dillon XL650 and XL750 presses; do not use it with other models.
- **Emergency Procedures:** In case of an accident or injury, seek immediate medical attention and report the incident to the appropriate authorities.

Instructions for Installation and Usage

1. Installation

- Ensure your Dillon press is turned off and unplugged before installation.
- Remove the factory primer feeding mechanism from the press frame using the two included screws.
- Align the Armanov Swage PRO onto the press frame, ensuring it fits securely.
- Use the heavyduty vertical adjustment screw to anchor the bracket firmly to the frame.
- Doublecheck that the installation is secure and that there is no flex when applying pressure.

2. Usage

- Confirm that all components are properly installed before operating the swager.
- Follow the manufacturer's guidelines for swaging brass cases.
- Always monitor the process to ensure safe operation and avoid any mishaps.
- After use, turn off and unplug the press to ensure safety.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for recycling options specific to metal components and electronic parts.

- Ensure that all packaging materials are disposed of responsibly.

Contact Information for Further Support
