

Small Pin for Armanov Swage PRO | Dillon XL650 / XL750 - Armanov Swage PRO for Dillon XL750 | Base + Small Pin

High-Volume Crimp Removal: Progressive Swaging Kit with On-Board Storage
Upgrade your press into a high-speed brass prep machine. This heavy-duty swager mounts directly onto the press frame in place of the factory primer feeding mechanism using the two included screws. Engineered for seamless efficiency, it allows you to process military-crimped brass on the fly without breaking your reloading rhythm.

Safety Instruction Guide for Small Pin for Armanov Swage PRO

Introduction

Thank you for choosing the Small Pin for Armanov Swage PRO. This product is designed to enhance your reloading experience by providing a reliable method for crimp removal. To ensure your safety and the safe operation of this product, please read this guide thoroughly before use.

General Safety Guidelines

- Always ensure that the product is used in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear before each use.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, during operation.
- Be aware of your surroundings and ensure that the work area is clean and free of hazards.
- If you notice any unusual sounds, smells, or performance issues, discontinue use immediately and consult a professional.

Specific Safety Precautions for Use

- Do not exceed the recommended load capacity of your press when using the swager.
- Ensure that all components are securely fastened before operating the press.
- Avoid wearing loose clothing or jewelry that could become caught in the machinery.
- Do not attempt to modify the product or use it for any purpose other than its intended use.
- Always maintain a safe distance from moving parts during operation.
- If you are inexperienced with reloading equipment, seek guidance from a knowledgeable individual before use.

Instructions for Installation and Usage

Installation

1. **Prepare Your Workspace:** Ensure that your work area is clean and organized.
2. **Remove the Factory Primer Feeding Mechanism:** Unscrew and detach the existing mechanism from your Dillon XL650 or XL750 press.
3. **Attach the Swager:** Align the Armanov Swage PRO with the mounting points on the press frame.
4. **Secure the Swager:** Use the two included screws to firmly attach the swager to the press frame.
5. **Check Stability:** Ensure that the swager is securely mounted and does not wobble.

Usage

1. **Load Brass:** Place militarycrimped brass into the swager.
2. **Engage the Press:** Operate the Dillon XL650 or XL750 press according to its instructions.
3. **Monitor Operation:** Keep an eye on the process to ensure everything is functioning smoothly.
4. **Remove Processed Brass:** Once the crimp has been removed, safely collect the processed brass for further reloading.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Recycle packaging materials where possible.

- Do not dispose of the product in regular household waste. Instead, check for local recycling programs that accept metal products.

Contact Information for Further Support

For any questions or concerns regarding the safety and operation of the Small Pin for Armanov Swage PRO, please consult the manufacturer's website or contact their customer support.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your Small Pin for Armanov Swage PRO. Always prioritize safety and consult professionals when in doubt. Thank you for your attention to these guidelines. Enjoy your reloading!
